GPSBind-GUI | QuickStart Tutorial
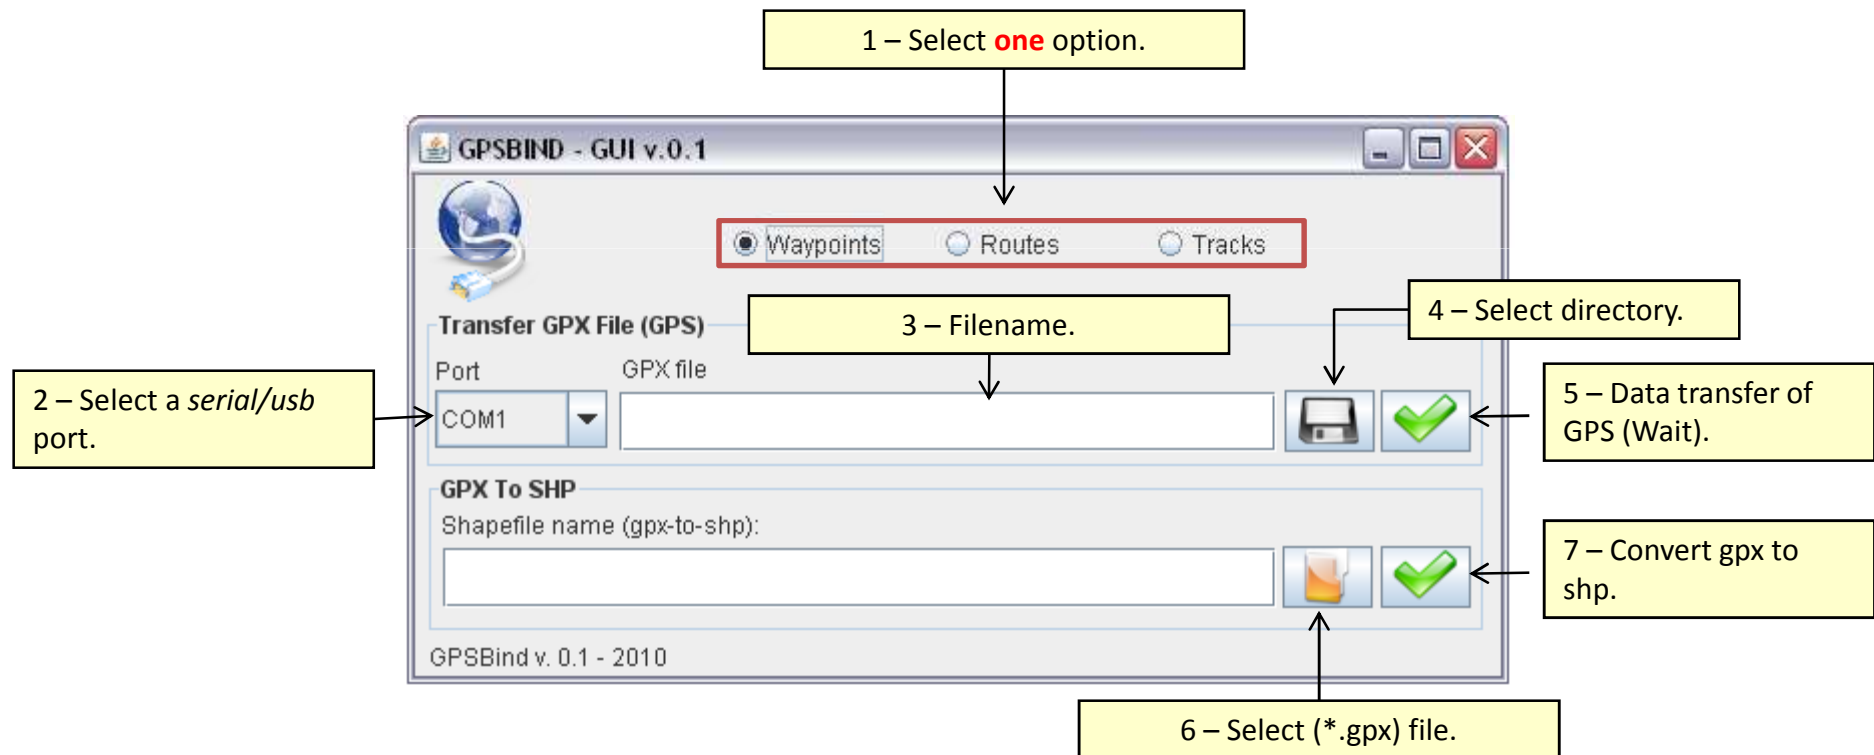

A graphical front end to GPSBabel and gpx2shp.

• **GPSBabel** to transfer data to and from GPS devices and to import (*.gpx) file written by Robert Lipe.[1]
• **GPX2SHP** converts the GPS Exchange Format(*.gpx) to ESRI/shape format(*.shp) written by Toshihiro Hiraoka.[2]
http://gpx2shp.sourceforge.jp/

1 – Select **one** option.

2 – Select a *serial/usb* port.

3 – Filename.

4 – Select directory.

5 – Data transfer of GPS (Wait).

7 – Convert gpx to shp.

6 – Select (*.gpx) file.
